Shona Dougall, Head of HR

CodeClan
37 Castle Terrace
Edinburgh
EH1 2EL

22nd July, 2016

Dear Ms. Dougall,

I would like to apply for the position of Junior Web Developer. Please find my C.V. attached for your consideration.

My firm grounding in Object Orientated Programming for web applications would make me a excellent fit for the position. I also have experience working successfully in a small team according to Agile methodology, which I will be able to draw on while working at CodeClan.

As a student at CodeClan, I have made extensive use of JavaScript and SQL, alongside other technologies, in full-stack applications. I have a strong interest in styling web content using CSS to create an attractive and user-friendly result. While working on a team project, I was able to communicate effectively with my team-mates during the planning and implementation stages. I have also been praised for my neat and clearly legible code.

I am confident that I can contribute positively to the continuing development of CodeClan's website, and I hope to discuss my application further with you. Thank you for your time and consideration.

Yours sincerely,

David MacKintosh
